

How to create an order through the Printrove Product Library?

A **quicker** way to place orders manually is through the Product Library. If your products have already been created in the Product Library, you can manually place an order in **6 simple steps**.

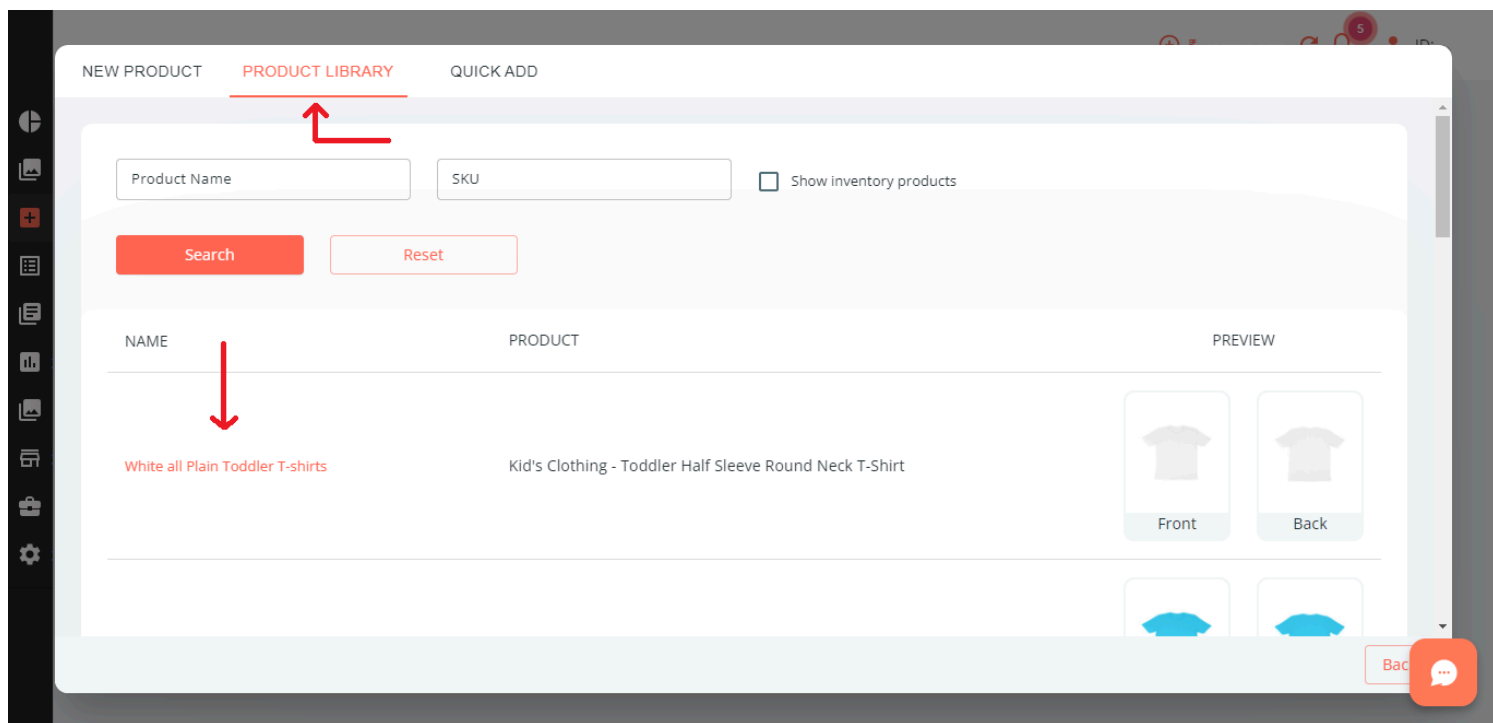

Follow the steps below to reduce the manual process of placing orders.

Step 1: Log in to your [Merchant Panel](#).

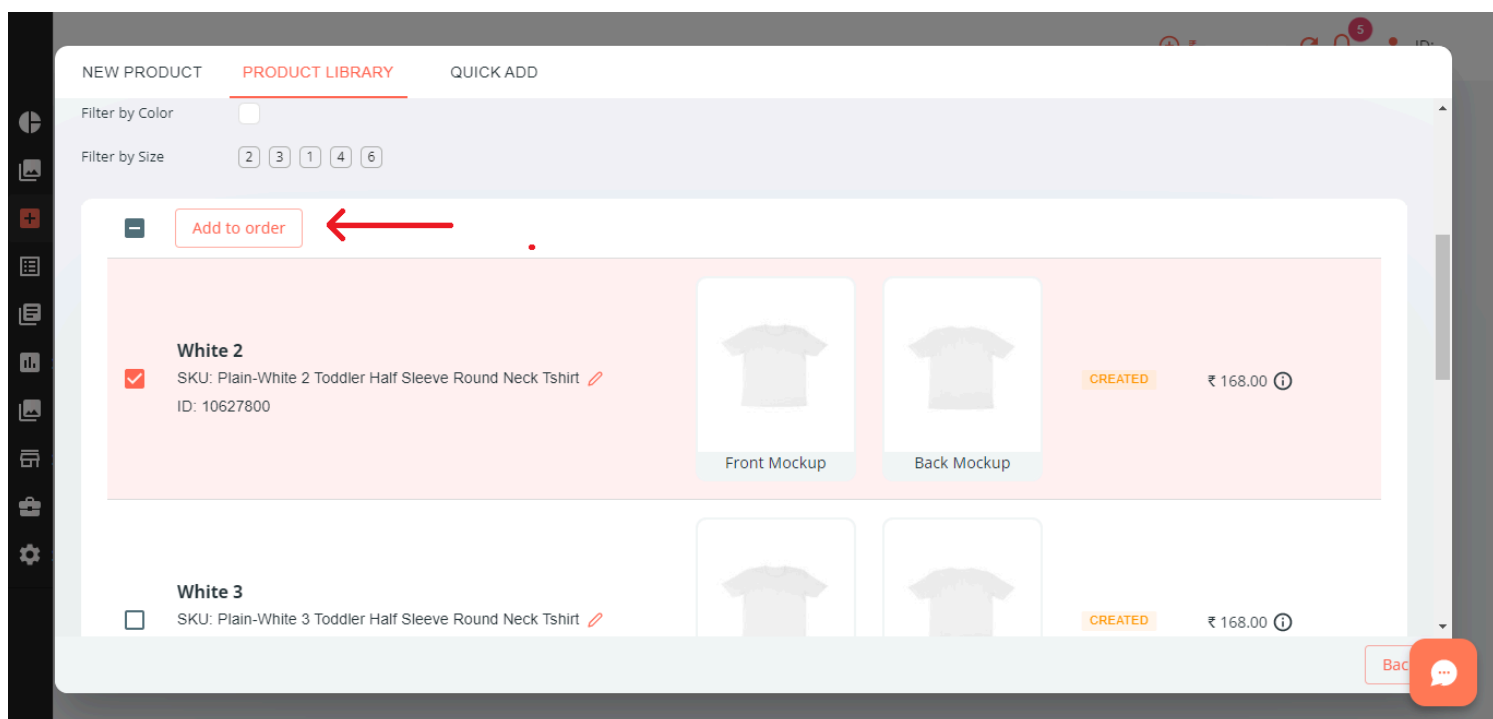

Step 2: Head over to **New Order**.

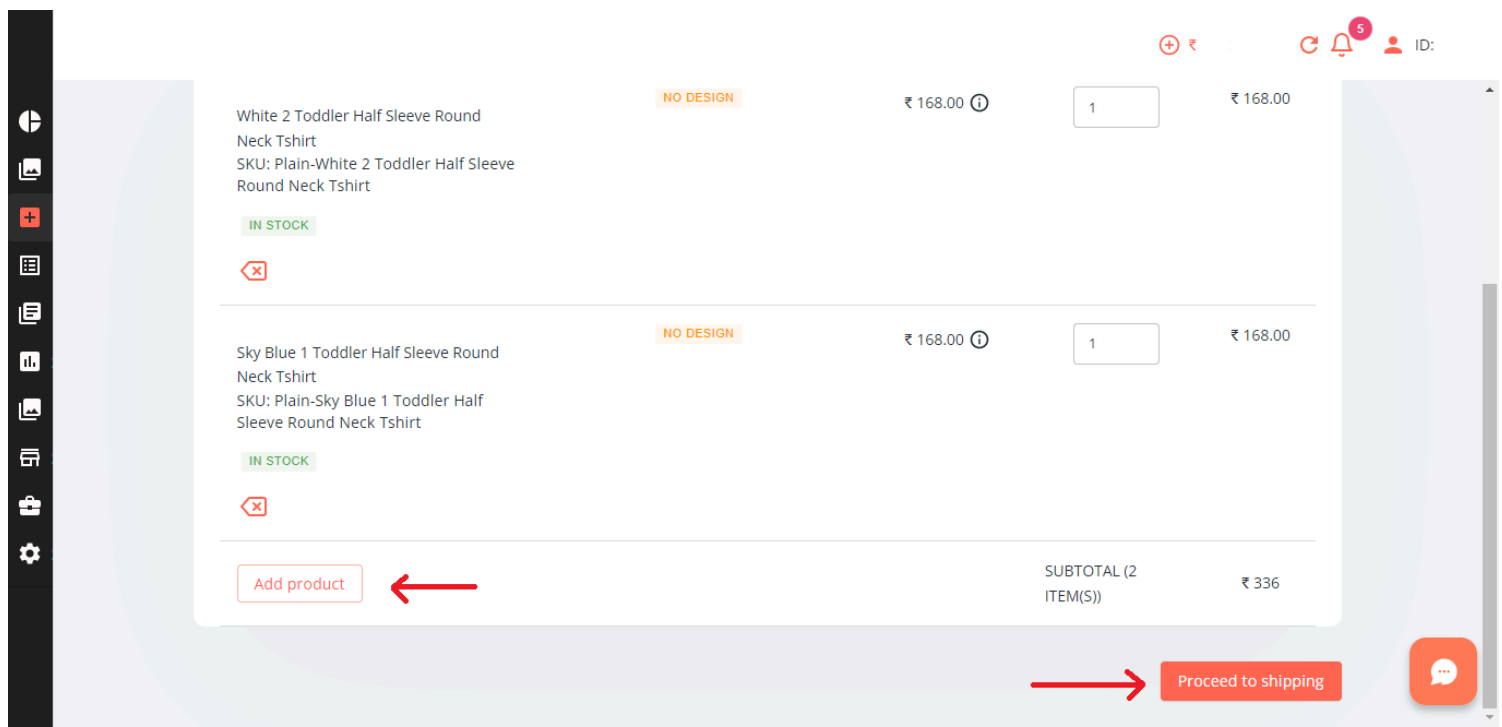

Step 3: Under the Product Library section, click on the **product** you would like to add to the order.

Step 4: Select the **Variant** and click on **Add to Order**.

Step 5: Once you have added all the required products to the order, you can **Proceed to Shipping**.

Step 6: Fill out the customer shipping details and **place** it once reviewed.

That's it! You have successfully placed an order through the Product Library and **saved** precious minutes.
